

POWER TRANSMISSION BELTING

High Performance Link Belting for Power Transmission Applications

PowerTwist Link Belting for Power Transmission Applications

As a long-lasting upgrade to rubber belts, PowerTwist Link Belting combines the performance of a rubber belt with additional cost-saving benefits:

Fast, Easy Installation

- Easy to use twist-lock design is made to length by hand
- Great for captive and fixed center drives
- Drops right in to existing equipment

Longer Belt Life

- Withstands extreme temperatures -40°F to +240°F (-40°C to +116°C)
- Unaffected by oil, grease, water and common industrial solvents
- High resistance to abrasion and shock loads

Simple Inventory Management

- Less money tied up in spare endless belts
- Always have the right belt length on hand
- Available in red classical V and blue wedge profiles

Attribute	PowerTwist 	Rubber Belts 
Installation	Make to any length by hand and roll on existing equipment	Requires adjustments to the pulleys and motor base
Inventory Management	One box covers multiple belt lengths – Any belt, any time	Multiple endless belts required to cover all drives
Drive Vibration	Individual links dissipate transmitted vibration	Continuous tension cord carries drive vibration
Temperature Range	-40°F to 240°F (-40°C to 116°C)	-30°F to 153°F (-34°C to 67°C)
Chemical Resistance	Unaffected by oil, grease, and common industrial solvents	Continued exposure reduces belt life
Abrasion	High resistance	Low resistance
Fixed and Captive Drives	Assemble in place without moving components	Requires substantial equipment teardown

Cost savings you can count on

PowerTwist delivers a low cost of ownership through reduced downtime, longer belt life, and less inventory. On average PowerTwist provides the following cost reductions when compared to rubber belts:

Fans/Blowers

HVAC, Data Centers, Agricultural

77%

77% reduction in operating costs

84%

84% reduction in associated labor hours

Power Transmission

Mining/Aggregate/Cement, Forestry, Metal Manufacturing, General Industry

68%

68% reduction in operating costs

4%

4% reduction in energy costs

81%

81% reduction in associated labor hours

99%

99% reduction in downtime costs

PowerTwist Link Belting has the right belt for your drive

Count on Fenner Drives. We've got the right product for your application.

With over 100 years of manufacturing, technical and commercial expertise, Fenner Drives is a global leader in value-adding, problem-solving products for conveying and power transmission applications. Recognized widely for our expertise and innovation, we blend reliability, quality and value in our products while providing unsurpassed technical support and service.
